Startup and Shutdown Procedures for the Leica LMD 6500 Microscope

System Start up

1. Turn the power strip (#1) next to the computer and WAIT until the scope completely initializes before going to Step 2.

2. Start PC (#2) and WAIT until you get to the Windows desktop.

3. Log in to LMD User Account

4. Start Leica software from desktop icon.

Shutdown of System

1. Transfer saved files to removable media, or server. Do not leave your files on the computer.

2. Close all applications. Select shutdown in reverse order from Start Menu.

3. Be sure to record your time completely.

4. Become rich and famous!
